

# UI

Low performance

too much  
to load?

Difficult for  
new users to understand

Too much  
information displayed

No previous knowledge

code base not  
modular

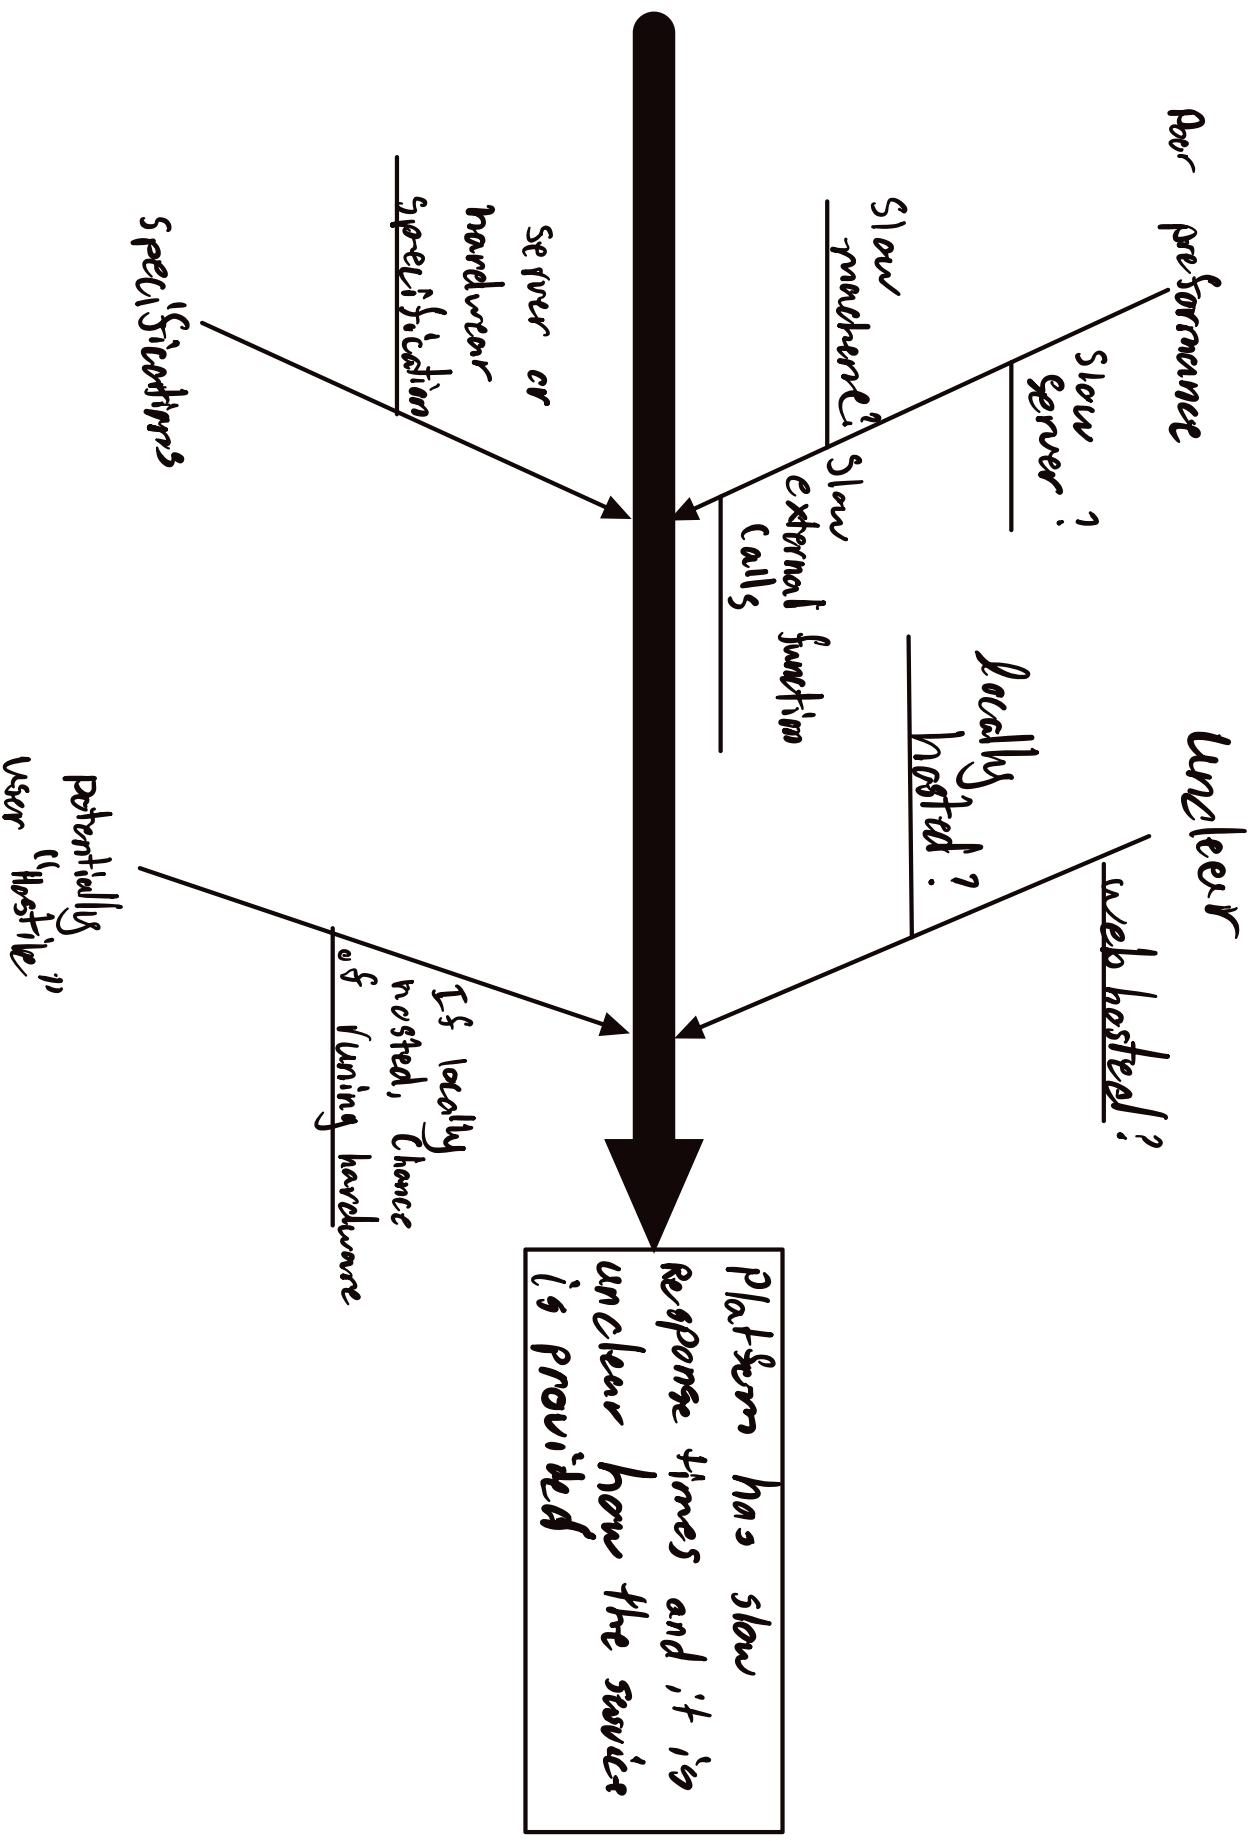

not implemented  
in a way the client  
can maintain

Poor use of  
white space

Cluttered/messy  
display

The system is difficult  
for new users to under-  
stand and is not implemented  
in a way the clients can maintain
